REVISED GUIDELINES EFFECTIVE FOR ALL APPLICATIONS RECEIVED AFTER OCTOBER 2019.
INTRODUCTION

Through the authority of the Family Law Article, Part X, Sections 5-594 through 5-594.8, effective October 1, 2002, the Maryland State Department of Education’s (The Department) Office of Child Care has been authorized to establish a Child Care Quality Incentive Grant Program.

Purpose: To award grants as an incentive for Child Care Providers to enhance the quality of care provided to the children of Maryland. The Department encourages Child Care Providers, through the Credentialing Program, to acquire additional training and education to enhance their knowledge of Early Childhood development and the role Providers play in helping children to enter school, ready to learn. As providers gain new knowledge about age-appropriate activities and experiences that help children develop physically, socially, emotionally, and cognitively, Incentive Grants will help them acquire supplies, material and equipment to create stimulating learning environments.

Objective: Except as provided by code, The Department may set the terms and conditions for Child Care Quality Incentive Grants. Although the intent is to be innovative, applicants must be able to show how materials approved for funding will be used to implement knowledge gained through participation in training and to enhance the quality of child care.
