Family Engagement Implementation

Creating a Communications and Technology Infrastructure to Meet Maryland Family Engagement Goals

A Communications and Technology Plan

Recommendations for Maryland's Family Engagement Initiative

- Develop a statewide family engagement communication system with MSDE as the hub;
- Conduct additional research that is specific to the demand and use of technology among early childhood stakeholders in Maryland;
- Disseminate information and provide technical assistance on technological innovations to support stronger connections between providers and parents;
- Review, strengthen, and highlight state-level policies and guidance;
- Create tools to lead a national learning community on state early childhood family engagement initiatives

Recommendation 1

Develop a statewide family engagement communication system with MSDE as the hub.

Recommendation 2

Conduct additional research that is specific to the demand and use of technology among early childhood stakeholders in Maryland.

Recommendation 3

Disseminate information and provide technical assistance on technological innovations to support stronger connections between providers and parents.
