COMAR 13A.16.01 SCOPE AND DEFINITIONS

.01 Scope ............................................................................................................. 1
.02 Definitions ....................................................................................................... 4
.01 Scope.

A. Applicability of Subtitle. Except as specified at §B of this regulation, this subtitle governs non-parental care of children for part of a 24-hour day not in the child’s own home, in a group setting such as a child care center, preschool, child development center, nursery school, before-school and after-school program, school age child care, or early learning center, by whatever name known, under private nonprofit, proprietary, public, and religious auspices.

**INTENT:** When a parent or guardian enrolls in a child care facility, there may be certain risks for the child. To offset these risks, child care center regulations have been established to protect the child’s health and safety. These regulations set certain minimum standards for child health and safety and the operation of a child care program.

B. Exemptions. This subtitle does not apply to:

1. A family child care home registered under COMAR 13A.15;
2. A facility that offers or provides a residential placement for a child under Family Law Article, Title 5, Subtitle 5, or Health-General Article, Title 6 or 10, Annotated Code of Maryland;
3. A youth camp, as defined by Health-General Article, §14-401(j), Annotated Code of Maryland;
4. A child care service operated by the federal government or on federal property;
5. A public school during the hours in which an instructional program is offered;
6. A nonpublic kindergarten for children at least 5 years old during the hours in which an instructional program is offered;
7. A nonpublic elementary school during the hours in which an instructional program is offered;
8. Child care services provided in connection with a shelter housing individuals temporarily without residences, exclusively for the children of those individuals;
9. The physical plant, including sanitary facilities, of a child care center exclusively for school age children, located in a currently operating public or nonpublic school building, if the application of the regulation would require modification of the physical plant;
10. Programs that operate for 6 weeks or less in any calendar year; or
11. The instructional program, curriculum, and teacher, principal, and administrator qualifications of a:
   a. Nursery school operated by a tax-exempt religious organization which does not have a certificate of approval from the State Board of Education; or
   b. Child care program operated by a tax-exempt religious organization in a school building used exclusively for children who are enrolled in that school.

**INTENT:** Certain early childhood programs and services are exempt from the requirements of COMAR 13A.16 – Child Care Centers, because:
• They do not meet the definition of a child care center;
• They are granted licensing exemption under Maryland law; or
• Their period of operation is too short to allow the application of licensing requirements.

Exemption Categories include:

• **Unconditionally Exempt.** The following are exempt from the requirement to be licensed because they are outside the scope of licensing regulations:

  ➢ Child care provided in connection with a shelter (for homeless persons, battered women, etc.) as long as the service are exclusively for children of persons residing in the shelter. The child care service need not be provided in the shelter facility itself, but may be provided in an adjacent building.

  ➢ Summer Youth Camps licensed by Maryland State Department of Health and Mental Hygiene.

  ➢ A nonpublic nursery school operated by a bona fide tax-exempt religious organization as long as the nursery school holds a certificate of approval from the Maryland State Department of Education.

  ➢ Child care service provided on federal government property.

  ➢ A program for children that is operated for six weeks or less in a calendar year.

  ➢ An instructional program for three-year old or four-year-old children offered by a non-public or public school during school hours.

  ➢ Sunday schools (no matter when actually held) or Bible schools.

• **Exempt by Definition.** The following are exempt from the requirement to be licensed because they are not considered “child care” as defined under COMAR 13A.16.01.02B (14) (b). These programs include:

  ➢ Before school or after school activity conducted or sponsored by a public or nonpublic school that is approved or exempt from approval by the Maryland State Department of Education.

  ➢ Group lessons or classes, unless provided in a pattern indicating that a child care center is being operated. “Lessons or classes” mean specialized training in a specific subject such as swimming, tennis, sports clinics, computers, foreign languages, dance, gymnastics, arts and crafts, and music.

  ➢ Scouting, sports, or youth club activities. A “youth club” means an organization where participants come together for a common purpose in
which there may be a membership fee. Examples include hobby clubs, photography clubs, drama clubs, service clubs, etc.

- School-age recreational or supplementary education programs operated by local Departments of Recreation and Parks or by public or nonpublic schools, as long as custodial supervision is not the primary purpose of the program. Some Departments of Recreation and Parks offer latch-key child care services. The services do not differ in substance from after-school child care and must be licensed.

- Preschool programs offered by Departments of Recreation and Parks that mirror traditional nursery schools must be licensed. However, a preschool program that lasts for approximately 1 hour per day, 1 or more times per week, which consists of skills instruction (such as gymnastics, dance, tumbling, art, etc.) does not need to be licensed.

- Before-and-after-school programs for school age children operated by tax-exempt religious organizations that are located in schools and serve only children who are enrolled in those schools.

- Supervisory services to children while parents are immediately available. A program does not need to be licensed if it provides child supervision in support of occasional or intermittent parental activities by sponsors such as health spas, aerobics classes, doctor's offices, supermarkets, etc., where the parents are on-site, can be notified immediately by the sponsor in the event of emergency, and can return to the child.

- **Partial Exemptions** – Staff Qualifications, Curriculum, Certain Equipment. Pursuant to COMAR 13A.16.02.01B, certain facilities are exempt from requirements pertaining to staff qualification, program curriculum, and certain equipment. These programs include:

  - Nursery schools or child care centers operated by tax-exempt religious organizations, and
  - Approved Montessori Schools

- **Partial Exemption** – Physical Plant. Child care centers for school-age children operated before and after school in a building that is currently in use as a public or private school are exempt from any licensing regulation that would require modification of the physical plant; however, such child care programs are subject to local fire, health, and zoning codes required of school buildings.
NOTE: Particularly with respect to businesses or organizations that offer after-school programs, it is sometimes difficult to determine if child care is being provided, or whether an organized "lesson" or "class" is truly the primary focus of the program. As applicable, the following questions should be asked to help make this determination:

- What time do children arrive for the after-school program?
- Does the program provide transportation to the after-school site? If so, beginning at what time are the children picked up? At what time do they arrive at the after-school site? At what time are lessons offered and for how long? When do the children leave? Who transports them when they depart the after-school site? Does the program serve children who do not participate in the after-school program?
- Are there any children who are at the after-school program all day? If so, at what times are lessons offered to those children? What activities are the children involved in when they are not taking lessons?
- Is the after-school program open to children on school holidays? If so, how long are children at the program site when they are not actually participating in a specific lesson or class? What are they doing when they are not in class, and who supervises them?
- Are field trips offered? If so, how often and what do they consist of? How long is their duration? Who supervises the children during the field trips?
- What services does the program offer in its advertising? If the program has any advertising flyers or brochures, request that the program director provide copies for review. If the program has a website, get the address.
- Does the program hold a camp license pursuant to Maryland Department of Health and Mental Hygiene regulations governing youth camps?
