.10 Procedures and Sanctions for Noncompliance — Educational Programs .. 21
.01 Purpose and Scope.
This chapter establishes requirements for approval to operate an educational program in a nonpublic nursery school located in a residence that is registered as a large family child care home.

**INTENT:** These regulations govern educational programs in nonpublic nursery schools and all matters related to the approval of those programs. Unless operated by a tax-exempt religious organization that holds a Certificate of Approval from MSDE, ongoing compliance with all applicable provisions of COMAR 13A.18 – Large Family Child Care Homes is required to maintain approval to operate an educational program in a nonpublic nursery school.

.02 Definitions.
A. In this chapter, the following terms have the meanings indicated.
B. Terms Defined.
   (1) "Certificate of approval" means the document issued by the State Board to the legal authority responsible for governing and operating a school if the school has met the requirements of this chapter.
   (2) “Child care home registration” means the document issued by the Department pursuant to this subtitle that authorizes the recipient to operate a large family child care home.
   (3) "Class" means a group of students scheduled to report regularly to a teacher at a particular time and place for the implementation of an educational program.
   (4) "Department" means the State Department of Education.
   (5) "Department representative" means an individual designated by the Department to determine compliance with this chapter.
   (6) "Educational program" means an organized program of instruction that:
      (a) Is provided by a teacher; and
      (b) Meets the requirements of Regulation .07 of this chapter.
   (7) "Institution of higher education (IHE)" means a college or university that is accredited by an accrediting commission of one of the regional associations of colleges and schools.
   (8) “Montessori program" means an educational program based on the pedagogical philosophy of Dr. Maria Montessori, as reflected in the program's teacher qualifications, curriculum, instructional methods, and materials and equipment.
   (9) "Nursery school" means an educational program for children who are 2 years old, 3 years old, 4 years old, or any consecutive sequence of these ages.
   (10) "Office" means the central office or a regional office of the Department's Division of Early Childhood Development, Office of Child Care.
   (11) "State Board" means the Maryland State Board of Education.
   (12) "Teacher" means an individual who:
      (a) Provides instruction to children enrolled in an educational program; and
COMAR 13A.18.13 Educational Programs in Nonpublic Nursery Schools

(b) Meets the requirements of Regulation .06B of this chapter.

**INTENT:** The purpose of these definitions is to establish a clear and consistent meaning of certain terms used in this Chapter of the regulations. Whenever one of these terms appears in this Chapter of the regulations and in this Manual, it means only what its definition as set forth in §B (1)-(12) of this regulation says it means.

**Notes:**
- “Accreditation” is the term used to describe the process for evaluating the quality of an educational program for the purpose of school improvement. Accreditation is voluntarily sought by a school. The accreditation process is carried out by private accrediting bodies that organize a team of professionals to evaluate a school. The costs associated with the accreditation process are borne by the school. Accreditation is usually based on a self-study by the school prior to the accreditation visit.
- “Approval” is the term used for authorization to operate a nonpublic nursery school educational program that was issued by the State Board of Education through the Department’s Nonpublic School Approval Branch before July 1, 2007, or through the Department’s Division of Early Childhood Development on or after July 1, 2007. Requirements for approval of a nonpublic nursery school educational program were set forth in COMAR 13A.09.09 – Educational Programs in Nonpublic Schools, prior to July 1, 2007. These requirements were amended and re-codified as COMAR 13A.18.13 – Educational Programs in Nonpublic Nursery Schools.
- “Certification” is the term used to describe the issuance of a certificate or document to an individual verifying that specific academic or professional standards have been met.

.03 Approval to Operate an Educational Program — General Requirements.

A. A provider may be approved to operate an educational program in a nonpublic nursery school only if:
   (1) The provider holds a valid registration to operate a large family child care home; and
   (2) The educational program would not be operated in the living space of the residence where the child care home is located.

B. Unless a provider chooses to cease operating an educational program, approval to operate the program, once granted, shall continue as long as the:
   (1) Child care home registration remains in effect;
   (2) Educational program is operated according to the terms under which approval to operate was granted; and
   (3) Provider remains in full compliance with all applicable requirements of this chapter.

C. Approval to operate an educational program in a nonpublic nursery school
COMAR 13A.18.13 Educational Programs in Nonpublic Nursery Schools

becomes void if the nonpublic nursery school's approval is suspended or revoked, or the child care home registration is suspended or revoked and the provider:
(1) Does not appeal the suspension or revocation action; or
(2) Appeals the suspension or revocation action and the action is upheld through the administrative hearing process or notice of deficiencies hearing before the State Board in accordance with Education Article, §2-206, Annotated Code of Maryland.

D. A provider who has ceased operating an educational program subject to the requirements of this chapter shall promptly return to the office the child care home registration that certifies approval to operate the educational program.
E. A certificate of approval to operate an educational program that was issued to the provider prior to January 1, 2012, shall remain in effect.

.04 Approval to Operate an Educational Program — Specific Requirements.
A. Application for Approval.
(1) Application for approval shall be made in a manner and form and according to timelines established by the office.
(2) The applicant shall submit all information that the office considers necessary in order to ascertain compliance with the requirements of this chapter.
(3) A provider who is already approved to operate an educational program may not apply for approval to operate another educational program if the educational program for which the provider is currently approved is not in full compliance with all applicable requirements of this chapter.

**INTENT:** Approval of an application to operate a nonpublic nursery school educational program is contingent on meeting all application requirements and procedures established by the Division of Early Childhood Development (DECD) Office of Child Care. The DECD Office of Child Care will not accept an application for an additional program from an operator who does not maintain full compliance for an existing program.

**Notes:**
- The “Application Packet and Instructions for Applying for Approval to Operate an Educational Program in a Nonpublic Nursery School in Maryland”, is provided to the applicant.
- Approval of an educational program is specific to a particular location. A nursery school operator may not begin operation of another program at a different location unless the Office of Child Care has approved that location. Failure to obtain approval shall result in an order by the Office of Child Care to cease operating at the unapproved location.
- Prior to the anticipated opening of the additional location, the nursery school operator must contact the appropriate regional office of the Office of Child Care.
Care for information regarding approval procedures for an additional program location. Contact should occur as early as possible in order to facilitate the planned opening date at the new location.

B. When the office is satisfied that the requirements of this chapter have been met, the office shall issue to the applicant a child care home registration that certifies approval to operate an educational program.

**INTENT:** Once all application requirements, including documentation requirements are met, an on-site inspection will be made to determine compliance.

**Notes:**

- Denial procedures are as specified in Education Article §2-206 (f), which states in pertinent part:
  (f) Notice of deficiencies; hearing –
  (1) If the State Board believes that a noncollegiate educational institution that applies for a certificate of approval does not meet the conditions or standards necessary for the issuance of the certificate, it shall give the institution written notice of the specific deficiencies.

  (2) Within 20 days of receipt of a notice of deficiencies, the institution may request a hearing before the Board, and, within 60 days of receipt of the request, the Board shall hold a hearing to determine if the certificate of approval should be issued.

  (3) If, within 6 months from the date on which the application for certification was submitted to the State Board, the institution has received neither a certificate of approval under subsection (e) of this section nor written notice of deficiencies under this subsection, it may request, within 20 days, a hearing before the Board to determine if the certificate of approval should be issued.

- On-site monitoring will be conducted by OCC personnel to determine compliance

C. The child care home registration shall specify the terms under which approval to operate an educational program has been granted, including the:

  (1) Hours, days, and months of approved operation; and
  (2) Ages of children who may be enrolled in the program.
INTENT: The terms of approval are included in the approval document so that the program operator and the parents of children enrolled in the program may be fully informed of the conditions and limitations under which the program is authorized to operate.

Note: The operating hours of an educational program in a nursery school that is required to be registered may not exceed 6 hours per day, as specified in Chapter .01, §02B(29) of these regulations.

D. If the provider intends to change the terms under which approval has been granted, the provider shall:
   (1) Notify the office in writing at least 60 days before the occurrence of any change or changes; and
   (2) Furnish any information the office considers necessary to approve the change or changes planned by the provider.

INTENT: Only the Division of Early Childhood Development, through the Office of Child Care, may set the terms and conditions under which an educational program in a nursery school may operate. These terms and conditions are specified on the approval document issued by the Division, and no deviation from those terms or conditions is permitted without prior written approval from the Office of Child Care.

To allow sufficient time for review and processing of the request, a request for a change in approval terms or conditions must be received by the appropriate regional office of the Office of Child Care at least 60 days before the intended date of that change. The Office of Child Care may deny, on the basis of insufficient notice as required, a request that is received less than 60 days before the date of the intended change.

Note: The changes listed below do not require prior approval, but they must be reported to the Office of Child Care regional office on or before their effective date:

- Change in the nursery school’s telephone number;
- Change in the nursery school’s fax number;
- Change in the nursery school’s e-mail address;
- Change in the nursery school’s mailing address;
- Change in the operator’s mailing address and/or telephone number;
- Change in the operator of the nursery school, or the operator’s agent, if the nursery school was approved by the Department before July 1, 2007, and is not required to hold a child care center license or letter of compliance; and,
- Cessation of operation (see §H of this regulation).
E. A provider may not seek approval of a change in the terms of the approval under any one or combination of the following circumstances:
   (1) The educational program demonstrates an area or areas of noncompliance;
   (2) The office has received and is investigating a complaint alleging that the educational program is in violation of one or more regulations under this chapter;
   (3) The office is implementing a sanction or an enforcement action against the child care home registration; or
   (4) A deficiency hearing is pending before the State Board in accordance with Education Article, §2-206, Annotated Code of Maryland.

   **INTENT:** Except as set forth in §D of this regulation, the Office of Child Care will not consider any request for a change in approval terms or conditions if the educational program or program operator is currently in violation of an applicable regulation, is the subject of a current complaint investigation, or is pending an enforcement or disciplinary action.

F. Notwithstanding the requirement established in §E of this regulation, a provider may seek approval of a change in the terms of the approval if approval of the change is the means for the provider to demonstrate compliance with this chapter.

   **INTENT:** The Office of Child Care may consider a request for a change in approval terms or conditions if that request is for the purpose of enabling the educational program or program operator to achieve or maintain regulatory compliance.

G. A provider may not implement a change in the terms of approval until the office has issued a revised child care home registration that reflects the change.

   **INTENT:** Any change to the terms or conditions of an approval must first be authorized through issuance of a revised approval document from the Office of Child Care. An operator may proceed with a change only upon receipt of that document.

   **Note:** If an operator implements a change in the terms of approval before receiving a revised approval document, the Office of Child Care may move to suspend or revoke the approval of the operation of the educational program.

H. A provider shall inform the office in writing at least 30 days before the provider ceases operating an educational program.

   **INTENT:** Advance written notification of closing by the operator to the regional office of the Office of Child Care is required so that the regional office has sufficient
time to complete its internal administrative procedures related to educational program closings.

.05 Compliance and Inspections.
A. Continued approval to operate an educational program is conditioned on the provider's maintaining compliance with this chapter.

**INTENT:** If the operator does not comply at all times with this Chapter (Chapter 18) of COMAR 13A.18 – Large Family Child Care Homes, the Division of Early Childhood Development may request the State Board of Education to suspend or revoke the operator's approval.

**Note:** All enforcement actions, are initiated on behalf of the State Board by the Division’s Office of Child Care as set forth in Education Article §2-206 (g) which states in pertinent part:

**Order to correct deficiencies** –

(1) If the State Board believes that a non-collegiate educational institution does not meet the conditions or standards on which its certificate of approval was based, it shall give the institution written notice of this belief.

(2) The notice shall specify the alleged deficiencies and direct the institution to correct them within a period of not less than 30 days as set by the Board. If the institution requests a hearing within 20 days of the notice, the Board shall hold a hearing to determine the matter.

(3) The order to correct the deficiencies shall be stayed until a determination is made after the hearing.

B. To evaluate compliance with this chapter, the office may inspect the educational program, with or without prior notice to the provider, at any time during the approved hours of operation of the program.

**INTENT:** Under Maryland law and regulation, the Office of Child Care is required to monitor and assess the compliance status of programs under its jurisdiction. Compliance monitoring and assessment is carried out through announced and unannounced on-site inspections. These inspections may occur at any time during a program's authorized schedule of operation.

**Notes:**
• For an educational program with a Large Family Child Care Home, the Office of Child Care shall conduct routine unannounced inspections in accordance with Chapter 17, §02E(2).

• For an educational program that is not required to hold a large family child care home registration, the Office of Child Care will conduct routine inspections only on an announced 24-month basis unless the program does not maintain full compliance. In this case, the Office of Child Care may also, at its discretion, institute unannounced inspections.

• Every inspection conducted as a follow-up to an earlier inspection where a noncompliance was found shall be unannounced.

• For all programs, an on-site inspection conducted in response to a complaint filed against the program shall be unannounced.

• The Electronic Licensing Inspection System (ELIS) is used to record compliance with the regulations for all nursery school educational programs requiring a large family child care home registration. See Sample ELIS “Large Family Child Care Home Inspection Report”.

• A manual paper inspection form is used for nursery school educational programs that are not required to hold a large family child care home registration. See “Monitoring Report – Educational Program in a Nonpublic Nursery School”.

C. During an inspection, the provider shall permit the Department representative access to any activity, person, material, document, or other information or source of information connected with the educational program that is considered necessary by the Department representative for the purpose of the inspection.

**INTENT:** A program operator must make available to the Office of Child Care representative any information needed by the Office of Child Care to fulfill its compliance monitoring and assessment responsibilities.

D. Following each inspection of the educational program, the office shall provide the provider with a written report of all findings of the inspection.

**INTENT:** The operator is made aware of the findings of the inspection that was conducted by the Office of Child Care (OCC) representative.

**Notes:**

• During each inspection of an educational program, the OCC representative must record inspection findings using ELIS, or manually using the “Monitoring Report - Educational Program in a Nonpublic Nursery School”.

• At the end of each inspection visit, the OCC representative reviews the inspection summary of findings with the operator.
Both the operator and the OCC representative sign the electronic inspection or manual inspection report.

The ELIS inspection report is subsequently emailed to the operator; or; if a manual report is completed, a copy of the manual report is given to the operator.

E. If the educational program fails to demonstrate compliance with the requirements of this chapter, the office shall notify the provider in writing of the:

(1) Regulation or regulations with which the program does not demonstrate compliance;
(2) Fact or facts that demonstrate the program's noncompliance with each regulation;
(3) Action or actions the provider is required to take to demonstrate compliance with each regulation; and
(4) Date by which the program is required to demonstrate compliance with each regulation.

INTENT: If the Office of Child Care (OCC) finds that the operator is not in compliance with a requirement of this Chapter of the regulations (COMAR 13A.18.13), the OCC shall provide written notice of that noncompliance. The notice shall specify what the noncompliance is, the pertinent provision of COMAR 13A.18.13 – Educational Programs in Nonpublic Nursery Schools, what the operator must do in order to correct the noncompliance, and the deadline by which that correction must occur.

Notes:

If a noncompliance was noted during an Office of Child Care inspection of the program, the statement of noncompliance shall be made as part of the inspection report.

Pursuant to Education Article §2-206(g):

- The specified deadline for correction of a cited noncompliance shall be at least 30 days from the date of the citation;
- Within 20 days of receiving the statement of noncompliance, the operator may request a hearing before the State Board to contest the finding; and
- If a hearing is requested, the State Board shall hold a hearing to determine whether or not the finding of noncompliance was justified. The order by the Office of Child Care to correct the noncompliance shall be stayed pending the State Board’s determination.

F. Sanctions.

(1) Failure to maintain compliance with applicable requirements of this
chapter may result in a sanction by the office, including restriction, suspension, or revocation of the approval to operate the educational program.

(2) Sanctions against an educational program located in a child care home may be severable.

**INTENT:** A sanction may be taken against the operator by the Division of Early Childhood Development, through the Office of Child Care, if the operator does not comply with all applicable requirements of COMAR 13A.18.13 – Educational Programs in Nonpublic Nursery Schools.

If the certificate of approval for an educational program is suspended or revoked, and this program is housed within a child care facility that is required to hold a large family child care home registration, the action does not affect the status of the large family child care home. However, if the large family child care home registration is revoked or suspended, the educational component may not operate.

**Notes:**

- All sanctions to end a program’s operation are taken pursuant to Education Article §2-206 (h) which states in pertinent part:
  (h) Order to end operations. —
  (1) The State Board may order a non-collegiate educational institution to end operations if the institution fails to correct the specified deficiencies within the period set by the Board and if:
    (i) A hearing is not requested; or
    (ii) After a hearing, the Board finds that the institution does not meet the conditions or standards.
  (2) The order takes effect 15 days after it is issued.

- Factors used by the Division in deciding which type of sanction (restriction, suspension, or revocation) to take include, but are not necessarily limited to, the following:
  - Nature and extent of the noncompliance;
  - Actual or potential impact of the noncompliance on children enrolled in the program; and
  - Compliance history of the program.

- If a sanction against the educational program takes effect, the regional office of the Office of Child Care shall issue to the operator a revised license or letter of compliance document that indicates the status of the educational program.

.06 Personnel Qualifications.

A. Educational Program Administrator.
(1) The educational program shall have an administrator who is responsible for the day-to-day administration of the educational program.

(2) The educational program administrator at a minimum shall meet the standards established in §B(3) of this regulation.

(3) The provider shall have a written position description that states the duties and responsibilities of the educational program administrator.

(4) The educational program administrator shall have sufficient time during each educational program day to carry out the duties and responsibilities stated in the written position description of the educational program administrator.

**INTENT:** The provider must ensure that the daily operations of the program are planned and directed by a properly qualified person. This person’s specific duties and responsibilities must be established in writing. The person must be present enough each day, and the program’s daily activities must be staffed and conducted in such a way, as to permit the person to carry out those duties and responsibilities fully and regularly.

**INSPECTION REPORT ITEM:** “Personnel Qualifications”

**COMPLIANCE CRITERIA:**

- A current program or facility employee has been designated to serve on a continuing daily basis as the program administrator (actual title or equivalent);

- The current administrator meets the minimum qualifications requirements set forth in §B(3) of this regulation;

- There is a written description of the administrator’s duties and responsibilities; and

- The administrator’s daily program schedule routinely permits the person to be present and able to carry out the specified duties and responsibilities.

**ASSESSMENT METHOD:** Evaluate compliance through observation, interview, and/or review of program records as appropriate.

**Notes:** The written position description must include a schedule that shows how the Educational Program Administrator will have sufficient onsite time each day to carry out the duties and responsibilities of the position. Since the regulations do not define "sufficient time" or prescribe a specific daily amount of time, the Licensing Specialist should review the position's duties and responsibilities and then ask the administrator to explain how the schedule allows enough time each day to meet those obligations.
B. Teachers.
   (1) An educational program shall have a teacher to implement the educational program in each class.
   (2) A teacher, regardless of whether the employment status of the teacher is full-time, part-time, paid, volunteer, or substitute, shall meet the requirements of §B(3) of this regulation.
   (3) A teacher who provides instruction in language and literacy development, mathematical and scientific thinking, or social studies shall hold or have completed:
      (a) A bachelor's degree from an IHE;
      (b) 120 semester hours of college credit from an IHE; or
      (c) foreign credential that is determined by the Department to be equivalent to a bachelor's degree from an IHE.

**INTENT:** The instructional program in each class must be led by a person designated as the class teacher who meets the minimum qualification and continued training requirements as specified. In addition to possessing specific educational credentials, a nursery school teacher must have sufficient continued training to keep abreast with current early childhood issues.

**INSPECTION REPORT ITEM:** “Personnel Qualifications”

**COMPLIANCE CRITERIA:**
- Each class is led by a designated teacher.
- Each class teacher meets the specified minimum qualification requirements for that class.
- Each class teacher completes at least 12 clock hours of approved continued training during each full year of employment.

**ASSESSMENT METHOD:**
- Evaluate compliance through observation, interview, and/or review of program records as appropriate.
- Review the teacher’s completed Professional Development Plan with attached documentation of trainings completed to determine if the teacher has completed continued training as required during the previous full year of employment.

**Notes:**
- A person designated as the teacher’s assistant in a class does not have to meet the requirements established by this regulation.
• A Maryland teaching certificate is not required for teachers in nonpublic nursery schools.

• When reviewing documentation of:
  
  ➢ Bachelor’s degree from an Institution of Higher Education (IHE):
    ❖ Compare name on transcript to name of individual (he/she may now have a different last name).
    ❖ Look for “Date degree conferred” on the transcript.
    ❖ If unsure whether the degree was awarded from an IHE, contact the Teacher Certification Branch of the MSDE Division of Certification and Accreditation at 410-767-0412 to verify if the institution is an Institution of Higher Education.

  ➢ 120 semester hours of college credit from an IHE:
    ❖ Compare name on transcript(s) to name of individual (may have a different last name).
    ❖ Look for “Total credits earned” or indication of total credits on each transcript. Disregard the “credits attempted” columns.
    ❖ Do not count only early childhood or education credits/courses.
    ❖ If it is unclear how many credits have been awarded, ask the applicant to highlight all credits awarded and indicate the total number of credits earned.
    ❖ Confirm the total credits awarded (double check).

  ➢ Foreign Credentials:
    ❖ Require the applicant to submit a copy of the evaluation of the foreign credential that has been done by a recognized foreign credential evaluation agency.
    ❖ Ensure that the evaluation indicates that the foreign credential is, at a minimum, equivalent to a U. S. Bachelor’s degree.
    ❖ If necessary, refer the applicant to the list of independent evaluation services agencies recognized by the Department to evaluate foreign credentials, or go to the website of the National Association of Credential Evaluation Services at www.naces.org for a current list of official agencies that evaluate foreign credentials.

(4) In addition to meeting the requirements of §B(3) of this regulation, a teacher employed in a Montessori program shall also hold a Montessori diploma for the level of the individual’s assignment.

(5) If the degree, college credit, or foreign credential required under §B(3) of this regulation does not include at least 6 semester hours of approved early childhood coursework, the teacher shall, in addition:
COMAR 13A.18.13 Educational Programs in Nonpublic Nursery Schools

(a) Hold or have completed:
   (i) The Child Development Associate Credential issued by the Child Development Associate National Credentialing Program; or
   (ii) 6 semester hours, 90 clock hours or their equivalent of approved preservice training; or
(b) Be certified by the Department as a teacher for early childhood in nursery through third grade.

(6) An individual approved as a teacher by the Department before July 1, 2010, shall remain qualified for that position as long as the individual is continuously employed as a teacher.

(7) A teacher in an educational program shall complete at least 12 clock hours of approved continued training per full year of employment, measured from date of hire, in that position.

C. An individual who provides assistance to a teacher in a class is not required to meet the requirements of §B(3) or (7) of this regulation.

D. Written Statement of Teacher Qualifications. A provider shall:
   (1) Maintain a written statement of the qualifications of each teacher who implements the educational program; and
   (2) On request by a parent or legal guardian of a child enrolled, or being considered for enrollment, in the educational program, give to the parent or legal guardian a written statement of the qualifications of each teacher who implements the educational program.

.07 Educational Program.

A. Program. The provider shall implement and maintain at the nonpublic nursery school a written curriculum of the nonpublic nursery school’s educational program for the development of skills for each approved nursery school age in the following areas:
   (1) Personal and social development;
   (2) Language and literacy development;
   (3) Mathematical and scientific thinking;
   (4) Social studies;
   (5) The arts; and
   (6) Physical development and health.

INTENT: The program must have, and follow, a written educational curriculum in specified cognitive, social, and physical skill domains that is appropriate to the ages and developmental levels of the children served by the program.

INSPECTION REPORT ITEM: “Educational Program”

COMPLIANCE CRITERIA:
• The program has a written curriculum for each class that addresses each of the listed content areas;
• In each class, the curriculum is appropriate to the age and developmental level of the children in that class.
• In each class the curriculum is implemented; and
• A copy of each class curriculum is kept on site.

ASSESSMENT METHOD: Evaluate compliance through observation, interview, and/or review of the written curriculum.

Notes:
• There is no single, prescribed curriculum design, format, or presentational method that all approved programs must follow. Instead, each program is free to use any design, format, or presentational method that it chooses as long as the content of the curriculum followed in each class clearly addresses each listed area on a daily basis.
• For a mixed-age class, a written curriculum for each age represented in the class must be implemented and maintained.
• Various kinds of early childhood curricula may be reviewed at the facility for approval. Examples of acceptable curricula include, but are not limited to, the following:
  ➢ Commercial Curricula. There are hundreds of different commercial curricula for early childhood education. Some examples are:
    ❖ The Creative Curriculum for Preschoolers
    ❖ High/Scope
    ❖ The Calvert School curriculum
    ❖ The A Beka curriculum
  ➢ Religious Curricula. There are numerous religious curricula. Some examples are:
    ❖ Christian
    ❖ Catholic
    ❖ Judaic
    ❖ Islamic
    ❖ Lubavitch
  ➢ Curricula of Different Philosophies. Some curricula adhere to a specific philosophy of education. Some examples are:
    ❖ Montessori
    ❖ Waldorf
  ➢ Local School System Curriculum:
    ❖ Some operators use the curriculum that a local school system implements for its Early Elementary Education Program (EEEP) for a 4-year-old nursery school program.
    ❖ Some operators adapt a local school system pre-kindergarten curriculum for a 3-year-old or 4-year-old nursery school program.
独立课程:
- 由特定的托儿学校开发。
- 往往围绕主题（我的社区，农场动物，动物园，天气，假日）开发某些课程区域。

互联网资源——无限的课程资源

- 查看书面课程时应注意的事项:
  - 确保为每一种寻求批准的年龄组（2岁，3岁，或/和4岁）编写了课程。
  - 确保每一种课程包括以下几方面的教学:
    - 个人和社会发展
    - 语言和读写发展
    - 数学和科学思维
    - 社会研究
    - 艺术
    - 身体发展和健康

注释：用于其书面课程的经营者的课题标题可能不完全与该法规中所使用的标题匹配，例如:
- 个人和社会发展可能标为“All About Me”
- 语言和读写发展可能标为“Pre-Reading Skills”
- 数学思维可能标为“Numeracy”或“Measuring”
- 科学思维可能标为“Discovery”、“How Things Grow”
- 社会研究可能标为“My Community”
- 艺术可能标为“Music and Movement”或“Free Expression”
- 身体发展可能标为“Gross Motor Activities”
- 健康可能标为“Taking Care of My Body”

- 不管课程的名称或类型如何，托儿学校都必须，至少，涵盖§A(1)-(6)中所要求的所有课程区域。
- 如果你不确定所有涉及的课程领域是否包含在课程中，要求经营者的向你指出每一种课程领域，使用§A(1)-(6)中所规定的课程区域来确保所有涉及的课程领域都包括。
- 不要求经营者改变其课程中的用语，因为这是课程的执行文件。只需要求经营者指出每一种课程领域，使用§A(1)-(6)中所规定的课程区域来确保所有涉及的课程领域都包括。
INTENT: Instructional materials and equipment are items that are provided for use by enrolled children and are needed to implement the curriculum in each class. There must be sufficient items to permit full implementation of the curriculum. To ensure that these items will always be available and ready for use, the operator must own and maintain them on site.

INSPECTION REPORT ITEM: “Educational Program”

COMPLIANCE CRITERIA: All items necessary for implementing the curriculum in each class are:
- Owned and maintained on site; and
- Present in sufficient quantity for full implementation of the curriculum.

ASSESSMENT METHOD: Evaluate compliance through observation of materials.

Notes:
- §B of this regulation does not specify a required number of items the nursery school must have in order to implement the educational program. You should use observation and professional judgment to determine whether the quantity of items is adequate for the curriculum and the number of children enrolled in the program.
- When reviewing the list of instructional materials and equipment:
  ➢ Ensure that the list of instructional materials and equipment correlates to the specific areas of instruction required by §A(1)-(6) of this regulation:
    ❖ Personal and social development
    ❖ Language and literacy development
    ❖ Mathematical and scientific thinking
    ❖ Social studies
    ❖ The arts
    ❖ Physical development and health
  ➢ If the list does not identify the materials and equipment by the instructional areas specified in §A of this regulation, return the list and ask the operator to list the materials and equipment under the curricular areas specified in §A (1)-(6) of this regulation.
  ➢ Ask the operator to explain any material and/or equipment item that may be unfamiliar.
- If the list does not include items under all of the six areas of instruction required by the regulations, it is incomplete and un-approvable until complete.
.08 Child Records.

A. The provider shall maintain a cumulative record for each child enrolled in the educational program.

B. Each child's record shall include the:
   (1) Nonpublic nursery school's name;
   (2) Nonpublic nursery school's address;
   (3) Nonpublic nursery school's telephone number;
   (4) Child's first, middle, and last names;
   (5) Child's month, day, and year of birth;
   (6) Child's home address;
   (7) Month, day, and year the child initially entered the educational program;
   (8) Age on enrollment in the educational program;
   (9) Month, day, and year the child withdrew from the educational program, if applicable;
   (10) Child's performance information in each curricular area;
   (11) Code for the meaning of performance information; and
   (12) Number of days the child attended in each school year.

INTENT: The operator shall maintain a continuing record for each enrolled child that contains information specifically identifying the nursery school and the child, the child’s enrollment and attendance dates, and the child’s program performance.

INSPECTION REPORT ITEM: “Child Records”

COMPLIANCE CRITERIA: For each child, a cumulative record is kept on site that contains all of the required information that applies to that child.

ASSESSMENT METHOD: Evaluate compliance through review of program’s cumulative record form.

Notes:

- A cumulative record may be the child’s transcript or a combination of the child care home registration record together with the cumulative record file on the child as long as the combined records contain all the information in §B of this regulation. The requirement of §A of this regulation to maintain a "cumulative record for each child enrolled" means that the operator must have one record form for each child on which to record specific information for that child for the entire period of time the child is enrolled in the educational program.

- The cumulative record is not the same as a progress report (which is sometimes called a "report card" or a "report to parents").
• Progress (or performance) information from the report to parents is usually transferred to the cumulative record form that is maintained at the school.

• Each child’s cumulative record form must be maintained throughout the period of time that a child is enrolled in the educational program.

• Since nursery school attendance is not required before entering kindergarten, the cumulative record of a child is usually not requested by a receiving school; however, a parent might request a copy of it when the child leaves the educational program.

• Some operators use commercial student record forms. Some operators design their own student record form. Any record form is acceptable as long as it contains spaces, at a minimum, for all of the information required by §B(1)-(12) of this regulation.

• A school’s cumulative child record form may require additional information that the operator feels is important to be included.

• When reviewing the document submitted as the cumulative record form, check for:
  
  ➢ Accurate, full, official name of the nursery school as reflected on the application form and on the large family child care home registration.
  ➢ Complete and accurate location address of the nursery school. Ensure that the address on the form is the location address of the nursery school and not a Post Office box address or the address of the corporate or off-site office.
  ➢ Ensure that the telephone number is the telephone number of the nursery school and not that of the corporate or off-site office.
  ➢ Space for the child’s first, middle, and last names (in order preferred by the operator)
  ➢ Space for the child’s month, day, and year of birth.
  ➢ Space for the child’s home address.
  ➢ Space for the month, day, and year the child initially entered the educational program.
  ➢ Space to record the age of the child upon enrollment in the educational program.
  ➢ Space for the month, day, and year of the child’s withdrawal (promotion, graduation, etc.) from the educational program.
  ➢ Space for performance information in each curricular area for each school year.
  ➢ Code for the meaning of the performance information. (Some operators use a narrative format for performance information for early childhood.
D. Age of Admission.

(1) Except as provided by §D(2) of this regulation, a child shall be 2 years old, 3 years old, or 4 years old on or before September 1 of a school year to be age-eligible for admission during that school year to a nonpublic nursery school program approved under this chapter.

(2) A nonpublic nursery school may adopt policies and procedures permitting, on request by a child’s parent or guardian, and if a nonpublic nursery school determines that a child demonstrates capabilities warranting early admission, a:

   (a) 2-year-old child to be admitted to a 3-year-old nursery school program; or
   (b) 3-year-old child to be admitted to a 4-year-old nursery school program.

**INTENT:** To be enrolled during a given school year, a child must have reached the age of 3 years or 4 years by the start of that school year. Exceptions allow a 2 year old child to be admitted early to a program for 3 year old children, or a 3 year old to a program for 4 year old children, upon approval of the program following request from the child’s parent.

**INSPECTION REPORT ITEM:** “Child Records”
COMAR 13A.18.13 Educational Programs in Nonpublic Nursery Schools

COMPLIANCE CRITERIA:

- Except under early admission, each child in a 3-year-old program or a 4-year-old program became 3-years-old or 4-years-old, respectively, by September 1 of the current school year.
- For each 2-year-old child in a 3-year-old program, and each 3-year-old child in a 4-year-old program:
  - The child’s parent has made a request for the child’s early admission; and
  - The operator has determined that early admission is developmentally appropriate for the child.

.09 Health, Fire Safety, and Zoning.
A. A provider shall obtain and maintain documentation verifying current compliance with health, fire safety, and zoning regulations applicable to a nonpublic nursery school.

INTENT: The property of the nursery school must be safe for children and must comply with all applicable State and local codes. The nursery school operator must obtain all necessary health, fire, and zoning certifications and keep records of those certifications.

INSPECTION REPORT ITEM: “Health, Fire Safety, and Zoning”

COMPLIANCE CRITERIA: Documentation is maintained on site showing that the nursery school is in full current compliance with all applicable State and local codes.

ASSESSMENT METHOD: Inspect the nursery school files to verify that documentation of current compliance is present.

B. The requirements of §A of this regulation are met by complying with pertinent health, fire safety, and zoning requirements set forth under this subtitle.

INTENT: In order to hold a large family child care registration, the operator of an educational program located in facility has already met all applicable State and local code requirements. Relevant documentation obtained in connection with a registration may also be used for educational program approval purposes.

.10 Procedures and Sanctions for Noncompliance — Educational Programs.
If the Department believes that a nonpublic nursery school does not meet the conditions or standards on which the certificate of approval of the school was based, the Department shall implement procedures and sanctions for noncompliance approved by the State Board.
INTENT: The State Board, through The Division of Early Childhood Development’s Office of Child Care, may move to sanction an educational program for noncompliance with the requirements of COMAR 13A.18 – Large Family Child Care Home, as set forth in Education Article §2-206.

Notes:

- **Suspension or revocation of the educational program approval.** If the Division moves to suspend or revoke the approval of the educational program of a nursery school operator and the operator wishes to appeal that action, the appeal will be heard by the State Board of Education.
  - The DECD Office of Child Care shall provide to the operator a written notice of the action that also contains a statement of the operator’s right to appeal to the State Board.
  - The operator shall have a period of 20 days to file a written request for appeal with the State Board.
  - If the operator does not request an appeal within 20 days after the notice of action, the action becomes effective 15 days later.
  - If a timely appeal request is made to the State Board, the State Board shall hold a hearing within 60 days to decide to approve or to deny the action by the Office of Child Care.
  - If the action is approved by the State Board, it shall take effect 15 days after the date of the State Board’s determination unless the operator files for judicial review of the State Board’s determination. The operator’s right to judicial review is fully set forth under Maryland’s Administrative Procedures Act, State Government Article §10-222.

- **Suspension or revocation of a large family child care home.** If the Division initiates suspension or revocation of the large family child care home registration of a nursery school that contains an approved educational program, the operator may appeal the action before the Office of Administrative Hearings (OAH).
  - An educational program located in a nursery school that is required to have a registration is prohibited from operating if that registration is suspended or revoked.
  - Even though approval to operate the educational program is automatically affected if the registration enforcement action is upheld, an operator does not have a separate appeal right before the State Board for continued operation of the educational program once the registration enforcement action is upheld.
