Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location: carried and rolled by the provider.

Shelter In Place Procedure:
The provider will gather the child and grab the ERTG bags and go into the basement (1 door 0 windows) and if the need should arise the provider will seal the door with sealing plastic and tape. The provider will call or text the parents to inform them of the emergency.

Evacuation Procedures:
Primary: The provider will account for the child and grab the ERTG backpack and carry-on, the provider and child will walk to provider’s vehicle. The provider will ensure the child is secured in the car by seat belt and the provider will inform him they are on the way. Upon arrival they will instruct them to locate the emergency shelter (1 door 3 windows). Once secure the provider will call or text the parents with emergency updates.

Alternate: If they could not access the primary location, the provider will gather the child and the ERTG bags and head to the provider’s vehicle. The provider will ensure the child is secured in his seat belt. They will drive to a location and call the parents to inform them they are on the way. Upon arrival he will escort the provider and child to the designated shelter (1 door 0 windows). Once they are secured the provider will call or text both parents with emergency updates.
