Planning and Maintenance

Person responsible for updating the Disaster Supply Kit and the Emergency Documents regularly:

First Name **Amanda**

Last Name **Burrill**

Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location: Carried

Shelter In Place Procedure:

The provider will grab the children, the ERTB and head to the basement living room which has 3 doors and no windows. If the need should arise the provider will use plastic and tape to seal the shelter. The provider will call the parents once they are secure.

Evacuation Procedures:

The provider will grab the children, the ERTB, her phone and car keys and proceed to her vehicle where she will secure the children their car seats that are already in the vehicle before driving to the primary evacuation location which is the provider's house. Once at the location, they will head to the basement that has no windows and 3 doors. If the need should arise, the provider will use plastic and tape to seal the shelter. The provider will call the parents after they are secure in the evacuation location.

If they couldn't shelter at the primary location, they [REDACTED] alternate evacuation location which is [REDACTED] most of the time and the provider would knock on the door to gain entry. Once there, they will shelter in the basement that has no window and one door. If the need should arise the provider will use plastic and tape to seal the shelter. The provider will call the parents after they are secure in the alternate evacuation location.

Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location: carried by the provider.

Shelter In Place Procedure:

The provider will gather the children and go into the basement (1 door 2 windows) in which the ERTG is already located and proceed to lock the door and then seal the door, vents and windows if the need should arise with the sealing plastic and tape. The provider would call the parent, once she and the children are secured.

Evacuation Procedures

Primary: The provider will account for the children, grab the ERTG and head to the provider's vehicle. The provider will secure the oldest and middle child in their car seat belts and the youngest child in the booster seat. Once secure she and the children will drive to [REDACTED], the provider will use [REDACTED] upon arrival. The provider and children would seek shelter in the [REDACTED] (1 door 1 window) and then call the parent once secured with emergency updates.

Alternate: If they could not access the primary location, the provider will account for the children, grab the ERTG and head to the provider's vehicle. The provider will secure the oldest and middle child in their car seat belts and the youngest child in the booster seat. Once secure she and the children will drive to [REDACTED], the provider will [REDACTED] upon arrival. The provider and children would seek shelter in the [REDACTED] (1 door 1 patio window) and then call the parent once secured with emergency updates.

Last Name

Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location: Carried

Shelter In Place Procedure:

The provider will gather the children calling them by name before heading to the basement to shelter in the main room, where there are two windows and two doors. The ERTG is already kept in the basement. The provider will use trash bags and duct tape to seal windows, should the need arise. Once everyone is secure, provider will call the parent.

Evacuation Procedures:

The provider will gather the children and the ERTG and head to her vehicle where she will make sure all the children are secure in car seat for [REDACTED] seat belts for the other children. The provider will call parent to let her know they are on their way to her house. The provider will drive to [REDACTED], which is the primary evacuation location, where she will use a spare key to gain entry and proceed to the living room where they will shelter. The living room has two doors and one large window.

If they couldn't shelter in the primary evacuation location they would go to [REDACTED]. Provider will follow the same procedures used to evacuate from care location, where she will gather the children and the ERTG and head to her vehicle where she will make sure all the children are secure in car seat for [REDACTED] and seat belts for the other children. The provider will call [REDACTED] let her know they are on their way to her house so she can let them in. Once there they will proceed to the living room where there is one door and one window. Provider will call parent once they get in the car to head to Evacuation location end after getting to the evacuation location.

Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location: carried by the provider.

Shelter In Place Procedure:

The provider will gather the children and grab the ERTG and go into the downstairs hallway (0 door 0 window). There are no direct doors, windows or vents to be sealed in this space. The provider will call or text the parent once secured with emergency updates.

Evacuation Procedures

Primary: The provider will account for the children, grab the ERTG and shoes for each child and head to the provider's vehicle. The provider will ensure the oldest child is in his car seat belt, toddler in a booster seat and youngest child in his rear-facing car seat and drive to [REDACTED]. Upon arrival, the provider will receive instruction from the [REDACTED] of where to shelter specifically, she too is familiar with the shelter options. The provider will text the parent once secured with emergency updates.

Alternate: If they could not access the primary location, the provider will account for the children, grab the ERTG and shoes for each child and head to the provider's vehicle. The provider will ensure the oldest child is in his car seat belt, toddler in a booster seat and youngest child in his rear-facing car seat and drive to the [REDACTED]. Upon arrival, the provider will call [REDACTED] or use the [REDACTED]. Once inside the provider and children will shelter in the [REDACTED] (1 door 0 window). The provider will text the parent once secured with emergency updates.

Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location:

Shelter In Place Procedure:

Provider will call immediately, then will grab Kai, the ERTB and head to the basement which has one door and two windows. If the need should arise the provider will use plastic and tape to seal the shelter. The provider will call the parent again once they are secure.

Evacuation Procedures:

The provider [REDACTED] RTG and proceed to the provider's vehicle where she will secure him in his car seat before driving to the primary evacuation location which is [REDACTED]. Provider will [REDACTED] before leaving the care location to let her know they are on the way. [REDACTED] be there to let them in. Once at the location head to the basement that has no windows and one door. If the need should arise, the provider will use plastic and tape to seal the shelter. The provider will call the parents before leaving the care location, during and after they are secure in the evacuation location.

If they couldn't shelter at the primary location, they will go to the alternate evacuation location which is the parent's house. The provider will call before letting parent & the parents partner know they are on their way so they can be let in. They will shelter in the basement that has one window and one door. If the need should arise the provider will use plastic and tape to seal the shelter. The provider will call the parents before leaving the care location, during and after they are secure in the alternate evacuation location.

Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location: carried by the provider.

Shelter In Place Procedure:

The provider will gather the children and ERTG and go into the basement(1 door 1 window). The Provider will use sealing plastic and tape to seal all doors, windows and vents if the need to should arise. The provider will call and text the parent throughout with emergency updates.

Evacuation Procedures

Primary: The provider will account for the children, grab the ERTG bag and head to the vehicle. The provider will secure the younger child in their booster seat and older child in a car seat belt. She will drive to [REDACTED] upon arrival the provider will speak with a [REDACTED] to receive instruction about where to shelter. Once secured the provider will call, text and video call the parent throughout with emergency updates.

Alternate: If they could not access the primary location, the provider will account for the children by taking a head count, gather the children, grab the ERTG and head to her vehicle. The provider will secure the younger child in their booster seat and older child in a car seat belt. She will drive to [REDACTED] upon arrival she will receive instruction from [REDACTED] or [REDACTED] of where to shelter for safety. Once secured the provider will call, text and video call the parent throughout with emergency updates.

Planning and Maintenance

Person responsible for updating the Disaster Supply Kit and the Emergency Documents regularly:

First Name

Last Name

Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location: Carried

Shelter In Place Procedure:

The provider will call and let the parents know there is an emergency situation then the provider will take the ERTB and the children and head to the basement and shelter in the front of the basement. There are two doors and two windows that the provider would seal with plastic and tape if the need should arise. Once secure, the provider will call the parent back to inform them what is going on and keep them updated.

Evacuation Procedures:

The provider will call and let the parents know there is an emergency situation then the provider will gather children and get the ERTB, go out the front door and head to provider's vehicle. Provider will then secure one of the children in her booster seat and the other secured with seat belt before heading to [REDACTED] which is the primary evacuation location. The provider will ask the reception desk where they will shelter once they get to the location. Once secure the provider will call parent to let them know what is going on and update them periodically.

If they could not shelter at the primary location, they will head the alternate location which is [REDACTED]. Before leaving the care location the provider will call parent and inform them that there is an emergency situation. Then the provider will gather children and get the ERTB, go out the front door and head to provider's vehicle. Provider will then secure one of the children in her booster seat and the other secured with seat belt before driving to the mall. Once they get to the evacuation location the provider will get directed to the shelter area. Once secure the provider will call the parent again and keep updating them.
