Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location: Carried

Shelter In Place Procedure:

The provider will grab the children, the ERTB and head to the her bedroom, which has one door and one window. If the need should arise the provider will use plastic and tape to seal the shelter. The provider will call the parent once they are secure.

Evacuation Procedures:

The provider will call the parent to arrange for their transportation. The provider will then grab the children, the ERTB, 2 car seats and 2 booster seats from the garage, and proceed to the vehicle where she will secure the children car seats and booster before being driven driving to the primary evacuation location which is [REDACTED]. They don't have to call ahead cause [REDACTED] is always home. Once at the location, they will be let in by [REDACTED]. They will head to the basement that has two small windows and 2 doors. If the need should arise, the provider will use plastic and tape to seal the shelter. The provider will call the parent after they are secure in the evacuation location.

If they couldn't shelter at the primary location, they will go to the alternate evacuation location which is [REDACTED]. The provider will call the parent to arrange for their transportation. The provider will then grab the children, 2 car seats and 2 booster seats, the ERTB and proceed to the vehicle where she will secure the children car seats and booster seats before being driven driving to the alternate evacuation location which [REDACTED]. The provider will call ahead letting [REDACTED] how they are on their way so that either [REDACTED] or her [REDACTED] can let them in. They will shelter in the daughter's bedroom that has one window and one door. If the need should arise the provider will use plastic and tape to seal the shelter. The provider will call the parents after they are secure in the alternate evacuation location.

Larbi

Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location: carried by the provider.

Shelter In Place Procedure:

The provider will call each child by name, gather the children and grab the ERTG bags. The provider and children will go to the basement (1 door 2 windows). If the need should arise the provider will use the tape and sealing plastic to cover the doors and windows. The provider will call the parent as soon as they are secured in the basement.

Evacuation Location(s) Procedures:

Primary: The provider will call each child and account for them, she will grab the ETRG bags and head to her vehicle. The provider will put the older children in the booster seats and the youngest child in the forward-facing car seat. The provider will call the parent and inform her of the emergency and drive to [REDACTED]. Upon arrival the provider will speak with [REDACTED] and be instructed of where to shelter. Once secured she will call the parent to update her.

Alternate: If they could not access the primary location, the provider will gather the children and ERTG bags and call the parent to inform them of the emergency location change. The provider and children will then walk to [REDACTED]. Upon arrival she [REDACTED]. Upon entry [REDACTED] will instruct the provider and children of where to shelter. Once secured the provider will call the parent.
