Description of how the Emergency Ready-to-Go Pack will be transported to an evacuation location: carried by the provider.

**Shelter In Place Procedure:**
The provider will gather the child and the ERTG and head into the storage closet (1 door 0 windows). If the need should arise the provider will use the sealing plastic and tape to seal the door if needed. Provider will account for the child and calm the child if needed then call the parent and inform them of the emergency.

**Evacuation Location(s) Procedures:**
**Primary:** The provider will account for the child and ERTG and head to the provider’s vehicle. The provider will secure the child in his forward-facing car seat. The provider will then call parent and inform him of the emergency, and head to the location. Upon arrival he will speak with the contact person and be instructed of where to shelter. Once they are secured he will ensure the child is in her care and call the parent with updated information.

**Alternate:** If they could not access the primary location, the provider will gather the child and ERTG and the provider will secure the child in her vehicle in his forward-facing car seat. She will then call/text the parent to inform her of the emergency. Upon arrival the provider will once inside the provider and child will head to the storage closet (1 door 0 windows). When they are settled she will call the parent again to inform them of the emergency update.
