COMAR 13A.17.01 SCOPE AND DEFINITIONS

.01 Scope .............................................................................................................. 1
.02 Definitions ........................................................................................................ 2
A. Applicability of Subtitle. Except as specified at §B of this regulation, this subtitle governs:

(1) Non-parental care of children for part of a 24-hour day in nursery schools operated by tax-exempt religious organizations; and

(2) Child care programs operated by tax-exempt religious organizations in school buildings used exclusively for children who are enrolled in those schools, by whatever name known.

**INTENT:** Many tax exempt religious organizations operate nonpublic schools and prefer that the State of Maryland provide minimal oversight in those schools. Nursery schools are considered child care centers and must be licensed to protect the health and safety of the children in care. If the religious organization provides before and after school care to children exclusively enrolled in the school, a child care license is also required to protect the health and safety of the children in care. A Letter of Compliance is the type of license issued for those programs. The regulations set certain minimum standards for child health and safety and the operation of a child care program in a school operated by a tax exempt religious organization.

B. Exemptions. This subtitle does not apply to:

(1) A nonpublic kindergarten for children at least 5 years old during the hours in which an instructional program is offered;

(2) A nonpublic elementary school during the hours in which an instructional program is offered;

(3) A program that operates for 6 weeks or less in any calendar year;

(4) The physical plant, including sanitary facilities, of a child care center exclusively for school age children, located in a currently operating public or nonpublic school building, if the application of the regulation would require modification of the physical plant; and

(5) The instructional program, curriculum, and teacher, principal, and administrator qualifications of a:

(a) Nursery school operated by a tax-exempt religious organization which does not have a certificate of approval from the State Board of Education; or

(b) Child care program operated by a tax-exempt religious organization in a school building used exclusively for children who are enrolled in that school.

**INTENT:** Certain early childhood programs and services are exempt from the requirements of COMAR 13A.17 – Letters of Compliance, because:

- They do not meet the definition of a child care center;
- They are granted licensing exemption under Maryland law; or
- Their period of operation is too short to allow the application of licensing requirements.
