

# Making Access Happen

[www.makingaccesshappen.com](http://www.makingaccesshappen.com)

The Making Access Happen Toolkit, a repository of resources and learning modules, is designed to provide a personalized, interactive learning experience for practitioners, providers and families in the support of evidence-based practices in early childhood settings. It has been designed to allow users to tailor their own toolkit and their own experience within the toolkit, based upon a user's current experience and need:

**"Just Enough, Just in Time, Just for You".**

## **BEHAVIOR MODULE**

Real life examples of challenging behavior

Steps to take to address behavior

Intervention strategies

## **COMING SOON**

Routines Based Interview Tools and Video Resources
