

Developmental Screening Training Options:

Face-to-Face Training:

To locate Face-to-face training, visit the following website:

<http://www.marylandfamilynetwork.org/training/for-child-care-providers/>

Online Training:

Online training can be accessed for free through December of 2016:

Visit ececourses.thinkport.org to begin.

1. Click the green banner for course registration: **Register Here for Thinkport's Early Childhood Courses.**
2. Click the **Developmental Screening Overview** course title to select your session.
3. Click "**Create Account.**"
4. Complete the form and make note of your username and password. Click "**Submit.**"
5. Scroll to the bottom of the page and click "**Add to Cart.**"
6. Click "**Checkout**" and answer each question about your role as a provider.
7. Click "**Next**" and "**Place Order**" to complete registration.

A message will appear on the screen to confirm that your order is placed. You will also receive a registration receipt by email, which includes your login details and course website link. Be sure to check your spam folder if you don't see the message in your inbox.

Allow 60 minutes to access your course. New registrations are updated hourly and you will receive an "Invalid Login" message until updates are processed.

Access the Course

Login to the course website (noted on your registration receipt) with your username and password to complete the learning activities and access your certificate. Be sure to bookmark the course website for easy access until you finish.

Email earlychildhood@thinkport.org for technical assistance and support.

Tool Specific Training:

Tool specific training is available for providers to learn how to administer the recommended developmental screening tool they selected. For more information on tool specific training, visit:

<http://www.marylandfamilynetwork.org/training/for-child-care-providers/>
